

Mendip District Council Doors are Closed

Mendip District Council says 'our doors are closed but we're still working'

Following the latest government advice to prevent the spread of the Coronavirus, Mendip District Council has closed its offices to protect the community and its staff.

However, they reassure residents they are continuing to deliver essential services to the public.

You will still be able to contact the Council via the website www.mendip.gov.uk or by phone 0300 303 8588.

Customers can use the Council's online services and are being urged not to communicate via paper post, as far as possible.

Further updates will be given as to alternative arrangements for people if they are not online or do not have access to a phone.

Provisions are also being made for those who need to use our homelessness service.

If you have concerns about your own health and Coronavirus please visit the [NHS](https://www.nhs.uk) website.
